

SS Chaurasiya

Founder & Chief Strategist

HNITrade — Where Price Action Meets Technology

Market Veteran. Strategic Mind.

SS Chaurasiya is a seasoned market veteran with over 10 years of hands-on experience navigating the complexities of Indian financial markets. As the Founder & Chief Strategist of HNITrade, he has guided traders across multiple market cycles with unwavering discipline.

His approach combines deep market intuition with technology-driven execution, creating a unique edge in both discretionary and algorithmic trading environments.

10+ Years. Multiple Cycles. Proven Resilience.

1 — Early Foundation

Hands-on market participation and strategy development across equity, index, and derivatives segments

2 — Technology Integration

Development of algorithmic trading systems and automated execution frameworks

3 — Platform Launch

Founded HNITrade to share rule-based methodologies and mentor serious traders

4 — Continuous Evolution

Ongoing refinement of strategies across changing market regimes and volatility environments

Discipline Over Prediction. Process Over Hype.

Process-Driven Trading

Consistent execution of rule-based systems rather than reactive decision-making

Capital Protection First

Risk management frameworks designed to preserve capital across all market conditions

Technology as Edge

Strategic use of algorithmic tools to enhance execution precision and remove emotion

Long-Term Consistency

Focused on sustainable returns over years, not quick wins or guaranteed outcomes

Price Action. Market Structure. Precision.

Price Action Trading

Reading market behavior through candlestick patterns, support/resistance levels, and volume analysis across equity, index, and derivatives markets

Market Structure Analysis

Identifying trends, ranges, and key inflection points to align trades with the dominant market direction and momentum

Rule-Based Methodologies

Systematic entry and exit criteria that remove ambiguity and emotion from trading decisions

Algorithmic Excellence. Automated Precision.

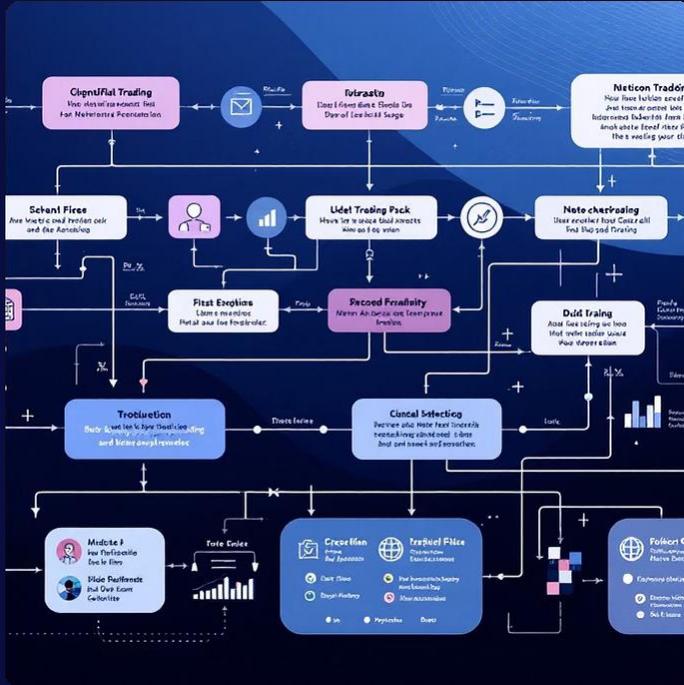

Strategic Automation

Custom algorithmic trading systems designed to execute Price Action strategies with precision and speed. Integration of technical indicators, risk parameters, and position sizing algorithms for consistent performance.

- Strategy development and backtesting
- Automated execution frameworks
- Real-time risk monitoring
- Performance analytics dashboards

HNITrade: Where Discipline Meets Technology

Rule-Based Systems

Comprehensive trading frameworks with clear entry, exit, and risk management protocols

Trader Mentoring

Structured learning paths and personalized guidance for discretionary and algorithmic traders

Consistency Framework

Capital protection methodologies and position sizing strategies for long-term sustainability

What Sets HNITrade Apart

Experience Across Cycles

10+ years of navigating bull, bear, and sideways markets with proven adaptation strategies

Price Action Focus

Core methodology based on market structure and price behavior rather than lagging indicators

No Guarantees, Only Process

Realistic expectations and education over promises of guaranteed returns or quick riches

Technology-Enhanced, Not Dependent

Strategic use of automation while maintaining discretionary judgment and market awareness

Who Should Work With SS Chaurasiya

High Net-Worth Individuals

HNIs seeking systematic, rule-based approaches to preserve and grow capital with disciplined risk management frameworks

Professional Traders

Institutional and professional traders looking to refine Price Action methodologies and integrate algorithmic execution

Serious Retail Traders

Dedicated retail participants committed to process-driven trading over short-term speculation

Algorithmic Developers

Traders building automated systems who need robust Price Action strategies as foundation
